SPACE TIME FLOW

International Youth SUMMERCAMP 2017: SPACE TIME FLOW in Rotary Distrikt 1850

Space-Time-Flow

Welcome to North-Western-Germany.

This part of the planet is a region with mainly three interesting aspects: Water, Landscape and Technology.

Water

The river Weser is the lifeline of this region. The river and his confluents connect almost all important villages and cities (also in context with Rotary Distrikt 1850, host of the Summercamp 2017), like Verden, Rotenburg, Syke and Bremen.

Landscape and History

The landscape is an interplay of river and lakes, forests and moors. It offers varied worlds of experience intermixed with a strong link to technology.

Technology

Bremen is a center of aviation and space in the north-west of Germany. In addition to a major contribution to the International Space Station, the satellites for the European navigation system Galileo will also be built here. Companies like Airbus Industries, OHB Technology and Astrium are located here, as well as agencies like DLR who are responsible for design and analysis of future spacecrafts space missions (launchers, orbital and exploration systems, and satellites).

International Youth SUMMERCAMP 2017: SPACE TIME FLOW in Rotary Distrikt 1850

Space-Time-Flow - Your Motto:

Space:

get an experience of space travelling, space & air industry.
Make own experience in the „School Laboratory“, or in the self-test Museum „Universum“, see the space station at „Airbus“ or the company „OHB“; famos for Satellits.

Time:

have fun with canoe, bath, coordination games like playing golf, sightseeing in Bremen and Hamburg or free time.

Flow:

find out how space innovation helps on earth, see the influence of the moon to the sea e.g. walk on the ground of the see.

HIGHLIGHTS OF OUR PROGRAMME:

- ▶ Canoeing
- ▶ Swimming pool Ronolulu
- ▶ Airbus Finkenwerder A380
- ▶ Guided tour through Bremen
- ▶ Olbers' planetarium
- ▶ Golf for beginners
- ▶ MARUM Bremen
- ▶ German Maritime Search and Rescue Service
- ▶ Navigation School Bremen
- ▶ Astrium - ISS
- ▶ DLR School Lab Bremen
- ▶ OHB System AG - Space Flight Gallileo
- ▶ Universum Museum

Ronolulu

MARUM-Bremen

Airbus Finkenwerder

Astrium-ISS

Olbers Planetarium

School Lab

Universum

REQUIREMENTS

Age: 18 - 25

- ▶ Ticket to and from Germany at own cost plus pocket money for personal expenses
- ▶ registration fee of 100 Euro ist the term for acceptance
- ▶ Clothing:
Casual clothes, swimsuit, warm sweater, hiking shoes, raincoat
